| Date:                                     | <input type="text" value="09 / 24 / 2023"/> |
| Price:                                    | <input type="text" value="100"/>            |
| <input type="button" value="Add flight"/> |   |

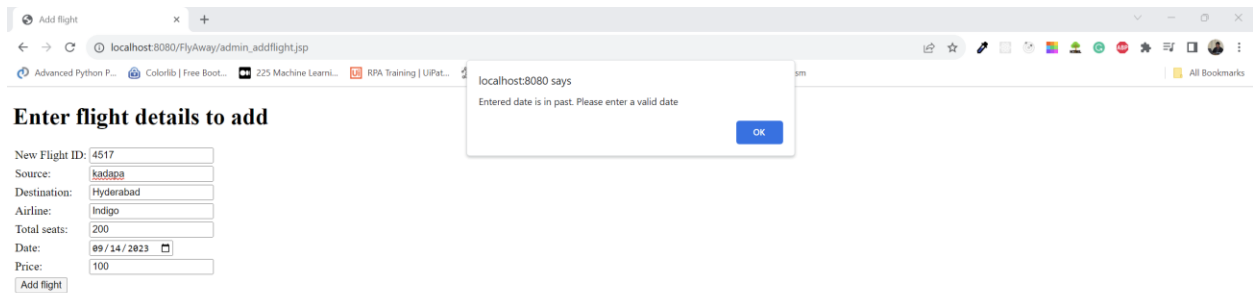

## Add flight js validations

### Source and destination same

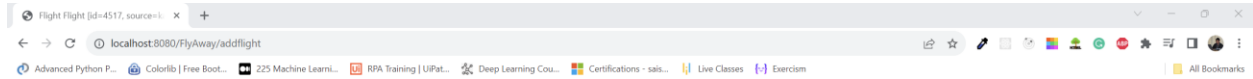

The screenshot shows a web browser window with the address bar displaying 'localhost:8080/FlyAway/admin\_addflight.jsp'. The page title is 'Add flight'. The form is titled 'Enter flight details to add' and contains the following fields: 'New Flight ID:' (4517), 'Source:' (kadapa), 'Destination:' (kadapa), 'Airline:' (Indigo), 'Total seats:' (200), 'Date:' (09/24/2023), and 'Price:' (100). An 'Add flight' button is at the bottom. A modal dialog box from 'localhost:8080' is open, displaying the message: 'Source and Destination cannot be same. Please enter different source and destination details'. The dialog has an 'OK' button.

### Date in past

The screenshot shows the same web browser window as above, but with the 'Date:' field set to '09/14/2023'. A modal dialog box from 'localhost:8080' is open, displaying the message: 'Entered date is in past. Please enter a valid date'. The dialog has an 'OK' button.

## Add flight success

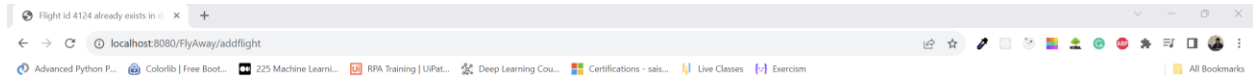

**Flight Flight [id=4517, source=kadapa, destination=Hyderabad, airline=Indigo, seats=200, date=2023-09-24, price=100.0] created successfully**
